¹ When Plaintiffs' listed dates in their descriptions of the data, those dates were used to generate a range of dates for this table. When Plaintiffs failed to note dates on their explanations of the documents, Defendants made best efforts to generate a range of dates from the face of the documents produced.

² Many productions included a wide range of dates. Since Plaintiffs failed to keep documents and work generated before and after the expert reporting deadlines separate, the "Notes" column timeframes refer to the later of the dates on the productions.

³ To reduce paperwork provided to the Court, Defendants submit as exhibits the letters from Plaintiffs' counsel accompanying and describing the data provided. Copies of the actual data are available should the Court wish to review them.
